RESEARCH INTERESTS

I study how accounting can help solve issues of public interest. My research examines the role of incentive structures and transparency as governance instruments to promote accountability and the sustainable use of resources in high-stakes regulatory settings. I use empirical-archival methods and survey experiments to examine these questions.

EDUCATION

University of Mannheim Graduate School of Economics and Social Sciences (GESS) Doctoral Studies in Accounting, supervised by Dirk Simons and Jannis Bischof	09/2019 — present
University of Miami , Florida, U.S. Visiting Research Scholar, invited by Mark Maffett	08/2024 — 12/2024
